

REPORT

Brazil Boat Project

Dear Friends,

On behalf of Multiply and the Brazilian MB Conference, thank you for your support in extending God's kingdom into the lives of indigenous people groups along the banks of the Purus River, one of the main tributaries of the Amazon River in Brazil.

Purus River

Your generous financial support has enabled the completion of the work needed to re-fit a catamaran boat, which will be used to provide medical care, share the Good News and provide discipleship opportunities for new believers.

Completed boat

Vast numbers of the Purus River People have never heard the Gospel and live in isolated communities that require a five to ten-day boat ride to reach a hospital in the nearest city. Thus there are hundreds of people dying due to lack of consistent medical care. The completed boat will aid as a mobile medical clinic, as well as a ministry tool with classrooms for training new believers and provide extra sleeping space for medical staff, missionaries and crew. This will allow for consistent medical care and spiritual support among those who need it most.

Mobile medical clinic

The few churches that operate in the Purus Region do not have discipleship programs or any training on how to disciple new believers. The newly completed boat will be a place for leadership training for pastors, as well as theological training for new believers.

“We want to thank you very much for all your effort into this project! We are celebrating a lot this tool that God has entrusted us with, through you, to live some more of his Kingdom in the Amazon,” said Franz Wolf Multiply’s Regional Coach for Latin America.

Today in Brazil there are close to 188,000 riverside communities who need Jesus. Thank you for partnering with us in bringing a tangible expression of God’s love to these indigenous people groups. Your generous support and prayer is appreciated.
